

*Cyprus is a city you never forget when you visit there even once. The island has a huge history and a very wonderful culture. In addition, this short journey is one of the unforgettable experiences in my life!*

*The day that will be memorable for me was Monday. On Monday the Cypriot school has organized for us many activities. First, we climbed a mountain and arrived at the place where have a waterfall! After we had dinner in a traditional tavern and that was amazing, because at each table sat someone from a different nation. We got to know each other better and exchanged our culture...*

*In conclusion, as far as I am concerned when someone travels, he understands the world in the best way he can.*
