Computers and the Internet

What is your opinion?

I like computers, but if you play video games you may get addicted to them but computers can also give useful information.

Charalampos A.

In my opinion, computers are both good and bad.

They are good because people can use them for work and find useful information that they're interested in.

They are bad because there are people who have sensitive eyes and also play video games, a combination which can cause many optical and body issues, such as epilepsy and short-sightedness.

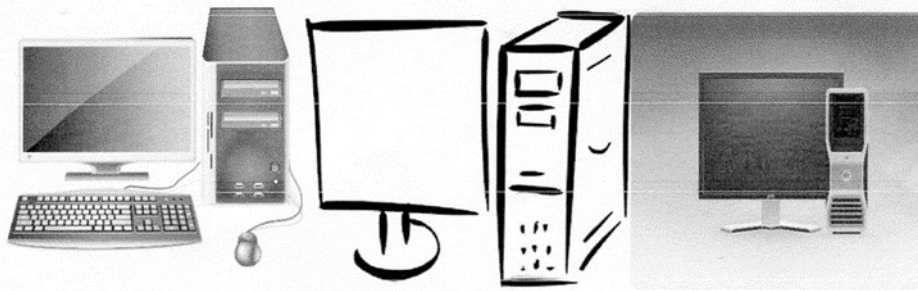

Nicolas Z.

With computers you can play games, watch videos, create folders to organise your files and other things but on the other hand, you can receive viruses or malicious messages on your screen. It can hurt your eyes and the bad things you see can cause nightmares and scare you. You can also get epilepsy or other issues that harm your brain. George Michael P.

On computers there are video games like Fortnite but they can hurt your eyes.

'A School Trip'

We like school trips because we can play football with our friends and have fun. School trips are our favorite time. We enjoy when we go with mum and dad to the supermarket and buy all things we need for the school trip. we usually buy a big bottle of water, biscuits, chips, jellies, chocolate and orange juice.

When we go on a school trip we also like very much listening to our favorite singers Stelios Kazantzidis, Pitsa Papadopoulou and Dimitris Mitropanos. Also, in the school, we created a football team with our friend Lino. With this team we play against other schools and we usually win! Apart from football we play other games too, like basketball and hide and seek. At the end of the school trip we are all very sad because it finishes. But, when we come

back to our school, we also play football and basketball before we go home.

GREEK CUSTOMS: Greek Easter traditions

By Debbie El. and Fotini Mp.

Easter is very important in Greece. During Holy week, people go to church every day.

On Holy Thursday they dye eggs red to remember Jesus.

On Holy Friday night there is a quiet walk of the Epitaph, a flower covered cross.

On Holy Saturday night people go to church with candles. At midnight they say "Christos Anesti", which means "Christ is risen" and light their candles.

After that, families eat a special soup, called magiritsa

On Easter Sunday people celebrate by eating roast lamb and playing a game with the red eggs.

A story: Part 1

A strange melody was playing in the forest. No one knows whose voice this is, but I know because I was there.

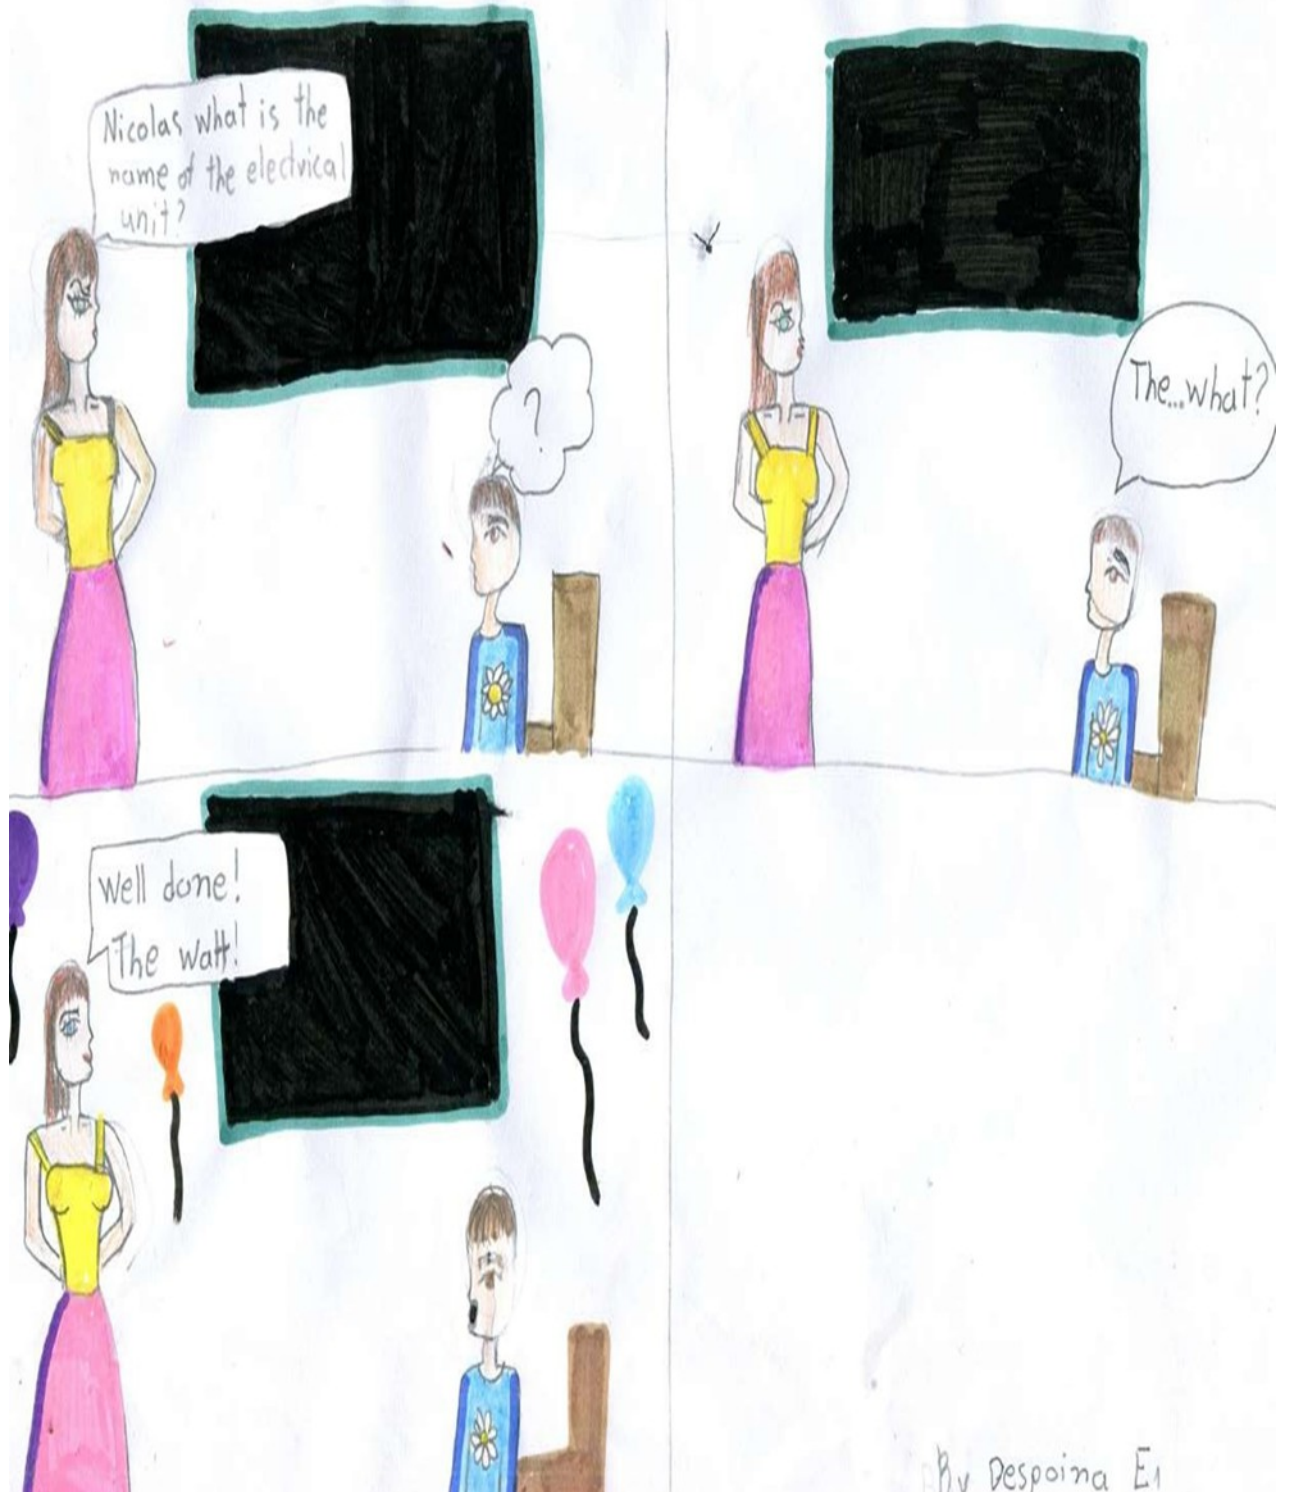

But let's take it from the start. My name is Susan and I am 14 years old. It was my birthday and I was having a party with my parents and friends, when a strange lady came into the house. She asked for a man with the name mr James Caradol. My mom told her to come later. She said something, but I couldn't hear it. After the party I went to bed. The next day I saw a mysterious letter and it wrote: "For mr James Caradol" again. That was strange! I wanted to open it, but my mom entered the room and I hid it behind my back!
