

My name is Agamemnon.
I am an early Cycladic Aegean
figurine. I was made in
Keros, an island of the
Cyclades in 2700 BC.

I was made with
good quality white
marble by a local
sculptor. My maker
used stone tools. He
was a great craftsman!

I was then decorated
with bright colours
for symbolic reasons. I have
my arms folded above the
abdomen and my left arm
rests on my right arm.

After many years I was discovered
in "Kavos" a small islet of Keros,
between Naxos and Amorgos.

A lot of people still don't
know why I was created.
They can only speculate
because there is no
written proof of
the reason I was made
or used. People think
I was created to
honour the ancient
Gods of Greece.
