

➤ *How covid-19 has affected the economy*

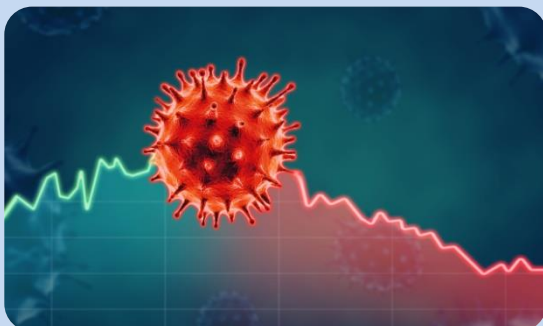

The covid-19 pandemic has affected the economy, causing an big enormous crisis. The governments have closed the shops, to protect the public health.

So, the shops have been closed for months and the owners are very disappointed. The money that the government gives them is not enough to maintain their shops. Many owners have closed their stores permanently.

In addition a lot of people lose their jobs because their boss can not afford to pay them.

Both the owners and the employees feel worry, insecurity, disappointment, anxiety and fear, The fear of what the next day will be bring for their jobs. Some of them may face depression

if they feel useless and they don't have the money to pay for their needs.
