

Reality and News of vaccines:

AstraZeneca: I asked people, who did the AstraZeneca vaccine, and they said that during the process of vaccination and after 2 weeks everything was absolutely fine. But the pregnant can't do it.

Pfizer: The people, who I asked, said that during the process of vaccination and after 2 weeks there was no problem.

QUESTIONS

1. Have people done the vaccine?
2. What percentage in Greece has been vaccinated (generally)?
3. Was the vaccination painful?
4. What happened after 14 days in vaccinated people?
5. Which ages are allowed to do the vaccine?
