

## **Movie review (Wonder)**

**by: Kostas Lefas**

The main characters are August Pullman (Jacob Tremblay), Izabel (Julia Roberts), Nate (Owen Wilson), Olivia (Izabela Vidovic). The movie has positive messages choosing kindness, appreciating everyone for who they are, and true friendship.

It was about a boy (August) who had a genetic facial deformity. Auggie meets both tough bullies and good friends as he attends goes to school for the first time! His family is always there for him.

My favorite person is August because he was always been kind and ready to help when they need him! Also, he managed to get a title after all the bad times he has with the bullies.

I would recommend this movie to George, because this movie teaches us a life lesson that we should never judge people by their looks!

The movie makes me feel happy because Auggie is finally more accepted by his classmates.

## Movie review

(by Aristeia Marathia)

The name of the movie is Wonder. The main characters are: Nate, Auggie, Olivia, Isabel. The movie's genre is family drama. I liked this movie because it had a lot of deep messages such as diversity and kindness.

It is a story about a kid named Auggie who wasn't an ordinary kid for some people because of his appearance. But they didn't know how good-hearted the kid was.

My favourite person is Summer, because she was very kind and friendly with Auggie, while most kids at school were unkind and unfair with him. But she disagreed with them and chose to be kind.

I would recommend this movie to teenagers, because it was a very good movie that everyone must watch. This movie makes me feel sad at the beginning but in the end happy.
